QUESTIONS

**YOU NEED TO ASK
BEFORE CHOOSING AN
I.T. PROVIDER**

Company:

1

Do they actively guide you along the AI journey and help you implement proper AI workflows and procedures?

2

Do they provide accurate timelines to resolve issues quickly, on time and on budget, guaranteed?

3

Are they a local company who can serve you in person AND at the job site?

4

Do they answer their phones with a live person every time you call?

5

Is their support designed to meet the unique needs of your construction business?

6

Do they cross-train their staff so you're always being helped by someone who knows you and your business?

7

If you have an after-hours emergency, do they have support available 24/7?

8

Is it standard procedure for them to provide detailed invoices and written documentation for all your critical passwords, hardware inventory, licenses etc?

9

Is their team led by someone with years of experience working in construction?

10

Do they offer essential services like computer setups, remote support, and emergency after-hours support WITHOUT extra fees?
